[1] List price is in U.S. dollars and subject to change without notice; contact the C.D.S. Group for current pricing. All C.D.S. software is subject to an annual licensing fee billed at 29% of the program list price. Payment of this fee entitles the licensee to use the program, program version and maintenance updates, and to unlimited telephone support from our C.D.S. Technical Support Center.

[2] Special university software suites and pricing are available. Contact C.D.S. for details or view Academic Packages on trane.com.

[3] Site users for the TRACE 700 family may install the software on multiple, stand-alone computers at one specific location.

[4] LAN users for the TRACE 700 family may install the software on a Local Area Network. Seats must be purchased for each user for a one-time fee of $75

TRACE™ 3D Plus Licensing Options:

TRACE 3D Plus Load Design
Provides a single annual license to use the Load Design "Software". The software may be installed and used on a single computer or supported interface device which can be directly accessed by only one user at a time, and which is not accessible to users on other computers. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software.

TRACE 3D Plus Load Design – Limited Enterprise
This license comes with one Load Design Limited Enterprise Seat and provides a single annual base license to install the software at any company location on any company or supported interface device based on the number of Load Design Limited Enterprise Seats that have been purchased. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software. A maximum of 15 seats can be purchased for this license.

TRACE 3D Plus Load Design –Enterprise
Requires the purchase of Load Design Enterprise Concurrent Seats (no seats included) and a TRACE 3D Plus license server installed on the company computer network. Provides a single annual base license to install the software at any company location on any company computer or supported interface device. Use of the software for each computer the software is installed upon is limited to the quantity of purchased Load Design Enterprise Concurrent Seats. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software.

TRACE 3D Plus Load Design Global Enterprise
Provides an annual license to install and use the Load Design software at any company location on any company computer or supported interface device. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software.

TRACE 3D Plus
Provides a single annual license to use the TRACE 3D Plus "Software". The software may be installed and used on a single computer or supported interface device which can be directly accessed by only one user at a time, and which is not accessible to users on other computers. During the annual license period the user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software.

TRACE 3D Plus Limited Enterprise
This license comes with one TRACE 3D Plus Limited Enterprise Seat and provides a single annual base license to install the software at any company location on any company computer or supported interface device based on the number of Limited Enterprise Seats that have been purchased. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software. A maximum of 15 seats can be purchased for this license.

TRACE 3D Plus Enterprise
Requires the purchase of TRACE 3D Plus Enterprise Concurrent Seats (no seats included) and a TRACE 3D Plus license server installed on the company computer network. Provides a single annual base license to install the software at any company location on any company computer or supported interface device. Use of the software for each computer the software is installed upon is limited to the quantity of purchased Enterprise Concurrent Seats. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software.

TRACE 3D Plus Global Enterprise
Provides an annual license to install and use the software at any company location on any company computer or supported interface device. During the annual license period each user is entitled to support from the Customer Direct Service support center as well as product maintenance updates and new versions of the licensed software.
